Machine Learning

LANGUAGES

Lang 1: English

Lang 2: Bengali

Lang 3: Hindi

CERTIFICATES

- Smart India Hackathon Grand Finalist by SIH 2023
- 5 star in Java by Hackerrank
- Azure AI Fundamentals AI-900 by Microsoft

SOFT SKILLS

- Leadership
- Teamwork
- Problem-solving
- Adaptability

HOBBIES

- Music Composition
- Gaming and Game Development
- Content Creation

EDUCATION

B. Tech in CSE(IOT, CS, BT) | UEM Kolkata

Aug 2021 – Jun 2025

Kolkata, India

- GPA: 8.39

ISC | Don Bosco School

Apr 2019 – Mar 2021

Bandel, India

- Aggregate: 82.0

ICSE | Don Bosco School

Apr 2009 – Mar 2019

Bandel, India

- Aggregate: 90.16

EXPERIENCE

AI Intern | Kreat.AI

Jul 2024 – Feb 2025

Bangalore, India

- developed and maintained python servers using **Flask** and **FastAPI**
- Prompting and Development of an *LLM independent AI Copilot* with custom knowledge base using **RAG** and **CDKG**.
- Data Scraping and Cleaning. Designing Real-Time Data Ingestion and Delivery Pipelines along with Database Maintenance.

PROJECTS

Template-based Document Fraud Detection | 🔄

Sep 2023 – Dec 2023

- Utilized a **Vector Database** to store embeddings of data for faster computation and scalability.
- Implemented Brute-Force Matching algorithm and Scale-Invariant Feature Transform (SIFT) for corner detectors in **OpenCV**.
- Applied various image processing techniques such as grayscale conversion, de-skewing, noise removal, and font adjustments for better **OCR** performance.

The Online Exam Proctor | 🔄

Oct 2024 - Dec 2024

- web-based proctoring with machine learning models to detect suspicious behaviors, such as multiple faces in the frame, off-screen glances, or unauthorized device usage..
- utilized Face and Voice Detection System using **CV2** on Python for automated monitoring. Implemented **MongoDB** for data storage.
